SUMMARY

Skilled and versatile Frontend Developer with over **5 years of experience** in designing, developing, and maintaining responsive web applications and mobile apps. Proficient in React, React Native, Next.js, Flutter, Node.js, MongoDB, and modern frontend technologies. Eager to leverage expertise in a dynamic team to drive forward innovations and efficiency in development practices.

SKILLS

- **Technical Frontend:** JavaScript, TypeScript, React, React Native, Next.js, Flutter, HTML5, CSS3, Tailwind CSS, Vite, Jest, React Testing Library, Vitest, Cypress

- **Technical Backend:** Node.js, Express.js, Fastify, MongoDB

- **Languages:** Hindi, English, Bengali, Odia

- **Certifications:** Intro to Python (DataCamp, 2021), M001: MongoDB Basics (MongoDB University, 2022)

PROFESSIONAL EXPERIENCE

Allica Bank, Remote *Senior Frontend Developer*, January 2025 - Present

- Leading the development and maintenance of the company's Design System, ensuring consistency and scalability across all products.

- Building and optimizing a React component library to streamline frontend development and enhance UI/UX consistency.

- Collaborating with cross-functional teams, including designers and frontend engineers, to implement cohesive and efficient user interfaces.

Rakuten Inc., Bengaluru *Senior Software Engineer II (Frontend)*, April 2022 - January 2025

- Developed Rakuten Music web app v2 with Next.js and Tailwind CSS, enhancing user engagement and experience.

- Developed internal component library using React, Tailwind CSS, and TypeScript, enhancing UI consistency and accelerating development efficiency across projects.

- Designed & developed Native JavaScript Bridge to enable communication with Native Android and iOS code, streamlining integration between web and mobile platforms.

- Developed internal tools with React, Next.js, and TypeScript, leading to over 50% improvement in workflow efficiency.

- Mentor junior developers, guiding them through complex technical challenges and fostering a culture of technical excellence and collaborative problem-solving.

- Lead code reviews to ensure high-quality code standards and foster a constructive environment for learning and development.

LearnQ.ai, Bengaluru *Senior Frontend Developer*, March 2021 - March 2022

- Led the development of the LearnQ.ai platform from concept to MVP, managing a team of 4 developers.

- Increased platform performance and speed by 70%, significantly improving user satisfaction and engagement.

– Designed and launched a quiz platform for users to take SAT mock exams, enhancing the educational offerings and user engagement.

– Successfully developed and released a user referral system, boosting platform growth and user acquisition.

HashCube Technologies, Bengaluru *Software Engineer*, March 2019 - March 2021

– Worked on rewriting existing games using Cocos2d-JS to create 64-bit versions, ensuring compatibility with newer hardware and operating systems.

– Developed native bridge to facilitate communication between JavaScript and native code, enabling the integration of native plugins like AdMob for enhanced monetization.

– Contributed to games that increased game downloads to 10,000 per day, marking a significant milestone in user acquisition.

– Improved mobile game performance for Mahjong Quest and Sudoku Quest, resulting in a 40% increase in App Store visibility.

AWARDS

– **Innovator Award**, Rakuten Inc. - An annual department level award.

– **Samurai Award**, Rakuten Inc. - A quarterly department level award.

– **Spot Award**, Rakuten Inc. - A monthly department level award.

EDUCATION

Dr. B.C. Roy Engineering College, Durgapur *B.Tech in Computer Science*, 2014 - 2018

– Achieved a CGPA of 8.9/10.0.

– Capstone Project: "Xamscoop," an online education portal facilitating remote learning.

Pitts Modern School, Gomoh *Intermediate in Computer Science*, 2011 - 2013

– Secured an aggregate of 60

PROJECTS

• **Audio_X:** A comprehensive JavaScript library for media playback, supporting major audio formats. Developed with TypeScript, it offers seamless integration for React and Vanilla JS projects. (Project Link)

• **Flutter Phosphor Icon:** A Flutter plugin providing access to over 4,000+ icons, enhancing UI development across mobile applications. (Project Link)
